

Cuvilly Pre-School/Kindergarten Alumni Survey

As Cuvilly Arts & Earth Center enters its second quarter century, we would like to establish stronger connections with you - our graduates of the pre-school/kindergarten program. Connecting with your stories helps us to strengthen and share our overall Cuvilly story. Over the years, the mission and vision of our early education program has remained constant: to teach children what they need to know for life. Please share with us how attending Cuvilly as a child has enhanced your overall education and experience of living in cooperation with nature and the larger global community. What reflections or suggestions would you like to share with us?
